

## Welcome, New Resident, From the Residents Website Committee

If you use the web, you'll find much valuable information on the **Kendal Residents Website**. The address is [www.kohresweb.org](http://www.kohresweb.org) Here's an overview of what's in it:

The **HOME** page has a guide to using the website, among other interesting things plus news, video clips, photos, calendar feeds, and contact information.

The **NEWS** page contains announcements and other news, frequently updated.

In the **INFO** section you will find, among other things:

- a colorful calendar of Gathering Room events and trips.
- "Did You See?" a blog with links to interesting articles, videos, and photos.
- a **Handy Guide** to local services, restaurant reviews, weather, and more.
- The weekly *Spotlight* Newsletter, plus weekly lunch and dinner menus; and
- Staff & Maintenance including the Staff Directory, a link to the Facilities Department WorxHub site for ordering repair orders to our apartments, a focus on Information Technology (IT) issues, and the KoH Telephone/Voicemail guide.
- Links to local transportation and Kendal organized trips.

The **COMMUNITY LIFE** section illustrates six themes that capture important features of our community: Sharing, Caring, Creating, Learning, Staying Healthy, and Exploring, with many photos and video clips taken by KoH residents.

The **COUNCIL and CMMS** section describes the Resident Council, Activities Committees, and other groups. You'll see the many resident committees that organize the rich educational, cultural, entertainment, and other activities we enjoy here.

The secure **RESIDENTS ONLY** section includes resident directories with names, pictures, phone and apartment numbers, and other confidential information not available to outsiders. Email Caroline Persell when you're moved in and ready to access it.
