

# Free Virus Protection Software

Identified by Nathan Saltzburg, March 2016

Based on *PC Magazine* reviews and some personal experience, he lists some of the many free Virus Protection programs available. The first three listings are deemed the preferred ones:

AVAST  
AVG  
PANDA

AVIRA  
ANTIVIR  
COMODO

Not listed, but available to Windows 10 users is WINDOWS DEFENDER, which is also a well rated free program.
